

"What do we know about the nature of the Godhead?"

The Godhead is one of those topics that I feel is SUPER important for the girls to understand. The Godhead is one of the reasons our Church is different from many Christian churches today. Understanding "Why" and being able to explain that to someone not of our faith is invaluable. In addition to the articles found in the lesson outline on lds.org I also used the following:  
[Learning About The Godhead](#) New Era January 2013  
[Rejoice in Our Knowledge of the Godhead](#) Liahona Feb 2005

The second article is where I came up with the handout idea. I have attached a JPEG with just one of the titles or a PDF with 3 to a page. My plan is to print them on cardstock and attach a snack size "Almond Joy" to each one.

Why would we rejoice? What I hope these girls take away from this lesson is that our knowledge of the Godhead makes it easier to develop a relationship with each of the members of the Godhead. Knowing we are Daughters of a Heavenly Father who loves us and created us in his image is reason to rejoice! Knowing that the Savior is literally our older brother and our mediator with Heavenly Father can provide us with a sense of comfort, hope, and a reason to rejoice! Knowing that the Holy Ghost is our constant companion and will testify of truth to us, helping us to discern right from wrong, is reason to rejoice!

Our knowledge that these three beings are separate and accessible to us can provide an opportunity to grow closer to each member of the Godhead. Each relationship is individual and important and has a purpose on our road back to our Heavenly Father's presence.

Slide #14 gives a chance for the girls to "role play." The role play includes answering questions about the Godhead from friends who aren't of our faith. [HERE](#) are some questions and possible answers you can use. Depending on the size of your class you could split the girls into small groups or have individuals answer.
